AMT 230 DC

AMT 230 DC is the flagship model of the AMT range, which everyone can customize according to their needs. Thanks to its versatility, this model is ideal for day cruises and longer outings alike. This 6.8-meter boat is easy to manoeuvre and offers excellent driving properties and, if needed, also robust performance, sporty speed and agility. The U-shaped couch in the spacious open aft area unfolds into an ample sun bed or a spare bed. There is plenty of storage space under the couch. The entire open area can be covered with a canopy, leaving enough height to stand. The space under the bow deck sleeps two grown-ups. The extensive selection of optional accessories offers e.g. a cooler, a drawer fridge or a traditional fridge. The pantry module can be removed, if desired, and you can also choose between a chemical or water toilet.
