Nikoi is a rare Fjord 24 Admiral. Hanko Terne, her Norwegian designation, means Little Sister, referring to the fact that the 24 is the shorter version of the extremely successful 28 footer. This model combines quality Norwegian boat building expertise with a classic design to produce a beautiful inland & coastal launch. The Fjord 24 is a unique boat, the likes of which are rarely seen in the Solent or in fact around Britain. Her large cockpit creates a wonderful social area for day boating, whilst the cuddy cabin provides the option to stay overnight. The present owner is only the second since new.

Inventory

Equipment

Bathing Ladder

Sea Toilet

Foldaway cockpit table

Boarding ladder on transom

Boathook

Brokers Comments

This is a really good boat; great layout and plenty of space. She has extra equipment and the bow thruster is very handy. She has been well looked after mechanically; serviced, anti-fouled and winterised every year. . If you are looking for something unusual and special, this is it.
