DF70 ATL - Long shaft (508mm)

All DF 70/80/90 outboards have F-N-R gears, water cooling, White trim gauge, Tacho & monitor gauge, Remote steering with side mount control box, Aluminium propeller and power trim & tilt.

The DF70A is lightweight and versatile, giving you the power and performance you need, when you need it

The DF70A benefits from our Lean Burn Control System which enables the engine to operate on a lean air-fuel ratio or a thinner mixture of fuel. The system controls the air to fuel mixture by predicting fuel needs according to operating conditions. It delivers its benefits over a wide operating range providing significant improvements in fuel economy from low speed operation well up into the cruising range, which all helps to reduce your fuel bills.

Fit a DF70A to your transom and you will benefit from; improved fuel efficiency, better throttle response, increased grip & acceleration, better weight distribution, zero-maintenance self-adjusting timing chain, smoother gear shifting, new reduced drag gear case all in a lightweight and compact design.

Available with 12 months interest free finance. Contact us for more information.
