Roach Dinghy

Built of glass reinforced plastic (GRP) with oiled Iroko gunwales/trim. She is taken off a traditional 1920's wooden clinker dinghy. We have kept the character of the grain and nail marks of the original in the moulding. Being of traditional design she sits in the water rather than on it and this allows her to row/sail beautifully.

Dimensions – 3M long X 1.33M wide X 80KG
She is CE rated for Category D for 2-people.

She comes with a standing lug sail of 3.5 M2, has a marineply dagger board and rudder. She is very simple and easy to rig/sail. Suitable for all ages and levels of experience.

Price £2875.00 Ex VAT £3450.00 Inc VAT at 20%
Oars and rowlocks are included as standard.
