The super 4 point vibration reduction system on these outboards needs to be felt (or not felt) to be believed. Coupled with the off-set powerhead position it makes for a smooth, compact and amazingly fuel efficient little runaround!

So whether this engine is to sit on your little tender, auxillary bracket, or act as main power on your small craft, it has the specs, features, quality and reliability that you have come to expect from TOHATSU Outboards.
