Your Day on the Water just got better! A perfect combination of sport and leisure, the new Evolution Line D.500 guarantees spirited performance and unique space with compact but streamlined lines. The Selva Marine experience and expertise are concentrated in 5 meters, which guarantee a perfect symbiosis between hull and engine. This means that the D.500 is born from a long series of tests and inspections that have determined in a perfect way the most suitable arrangement according to the motor applied. To completely respect the traditions of Selva brand. Your Day on the Water just got better!
