Linder 460 Arkip packaged with HONDA BF50LRTU(4 stroke,electric,power trim)

Built from high quality corrosion resistant aluminium as used in the aircraft industry, this lightweight planing hull will achieve speeds of 33 knots or more given the correct sea conditions. It has an offset steering position to give better access internally, a flat aluminium plated floor for stability and ease of use and easy to grip grab rails around her gunnels. A bathing ladder and automatic bilge pump come as standard.

characteristics as the boat but also enjoys the fuel injected economy of the modern four stroke equivalents but without any of their drawbacks.

The package is completed with an unbraked Roller road trailer

Length:4.6 metres

Beam:1.85 metres

Weight: 286 kg

Make: Linder aluminium boatsMore information
