Phantom P20
Mercury 200FF
15"Offshore mid
CLE Gearcase
Spare twin float baffled carb set
Twin axle low entry trailer
120 litre fuel tank
Lowrance HDS GPS
Capilano helm and side mount steering.

Our teams successful Phantom 20 is available immediately as a race ready package. The boat has recently had an extensive amount of work to ensure its ready for racing.

It's a fantastic boat and very capable in most conditions.

The motor during our possession has had a substantial amount of service and preparation work completed during and after most events.

Unfortunately due to other racing commitments in the USA the reality of being able to race in both countries isn't possible.

The boat is currently stored with motor removed and winterized.

For more info please feel free to message.
