Suzuki DF100B Four Stroke Marine Outboard Engine DATATAG security FREE with this engine Suzuki DF100B, is the 2018 new innovation from Suzuki - a four stroke outboard engines designed by Suzuki engineers that offer great fuel economy without sacrificing on performance while also being the lightest four stroke outboard in it's class - by a whole 25kg. This new models incorporate the tried and tested Suzuki Lean Burn System, which has been delivering remarkable fuel economy on Suzuki award winning flagship outboard, the DF300AP, as well as the DF15A, DF20A and DF40A through DF90A outboards. The Suzuki Lean Burn Fuel System allows the engine to operate on a leaner, more efficient fuel mixture providing significant improvements in fuel efficiency while still providing the power. This engines also incorporate an O2 Sensor Feedback System that keeps emissions cleaner and more stable, thus reducing impact on the environment. This outboard features a new engine cover designed with an aggressive, progressive and powerful form that proudly carry Suzuki's "S" mark embossed on the front. Suzuki outboards are built with decades of experience in the design, development, and manufacture marine engines. Our outboards are built with the needs of today's boaters in mind to help you go further, faster, for less. This engine is also available as the DF100BTX (extra long shaft - 25") for just £10,249 inc VAT.
