Specification

Model: 50 ELPT CT 2.1L Commercial Outboard Engine

Kilowatts (HP): 36.77 (50)

Max. RPM at full throttle: 5000

Cylinders: 4 (in line)

Displacement: 2.1L

Starting: Electric

Gear Ratio: 2.38 : 1

Gear Shift: F-N-R

Steering: Big Tiller (optional), Dual Cable Mechanical Hydraulic Steering

Alternator System: 35 amp

Trim positions: Power Trim and Power Tilt

Weight: 165kg

Recommended Boat Transom Height: 508mm (L)

Induction System: 8-valve single overhead cam

Equipment Included: racor water fuel separator, rigging hose, key switch, propeller, SC1000 Smart Craft gauge and a remote control box

RCD form required

Mariner Marathon commercial outboards are designed to work as hard as you do. Engineered to be ultra-resilient working partners for everyone making their living on water, they've earned their credentials for reliability by performing under the toughest working conditions possible to deliver trouble-free operation year after year.

On selected models, big tiller comes as standard which delivers essential commercial benefits: the more room in the boat and easy hands-on control of the engine with integrated shift, trim and throttle controls.

Whatever your job, there's a specific Mariner Marathon model to suit it.

Commercial Calibration

Marathon engines are specifically calibrated to achieve much longer engine life, ensuring reliability and performance when you need it most.

Fuel Efficient

Most Four-Stroke engines have up to 30% better fuel efficiency than Two Strokes, allowing you to go further on less fuel.

Corrosion Resistance

Mariner's proprietary formula, XK360, is an extremely low-copper-content aluminium alloy, which leads the industry in corrosion resistance. Costly corrosion failures and high labour bills are a thing of the past.

Lightweight

Lightweight, durable materials and fewer moving parts than competitive Four Stroke engines have made the marathon tough, compact, durable and highly efficient.

2 years/2000 hour Warranty

Commercial use only

Limited Warranty

Petrol Outboards Only

(Terms and conditions apply)

Installation and Commissioning Services available across the North, by Mercury Marine trained technicians.

Available for UK Delivery (Engine will be supplied with PDI completed)
