### Construction

Coastline has been building ribs in the UK for over 20 years. They continue to serve the demanding requirements of the commercial, professional and leisure sectors. Their hulls are characterised by the deep 'V' design and are renowned for their impressive sea keeping performance, their soft ride and excellent handling in all conditions. They have earned an invaluable reputation from professionals and are regarded 'Best in class' by many leading rib test drivers. The Coastline range of RIB's consists of 10 models from 5 to 10 meters LOA with a flexible range of consoles, seating, and storage lockers including cabin options.

### Mechanical :

#### Mechanical Systems

The Rib is powered via a single 2012 Suzuki DF300 outboard engine with 502 hours as of October 2019, 6-cylinder four stroke 300hp. Fly by wire control. Trim Tabs achieves a cruising speed of approximately 25knots with the capability to achieve approximately 50 knots given the right conditions. 240 litre fuel capacity.

#### Electrical Systems

1 x 12-volt battery charging from the engine alternator, 12-volt battery charger.
