- Inboard Diesel Engines
- United Kingdom
- 8.4 litres

Brand New AGCO SISU 84CTIM marine diesel engine rated at 302kW (410hp) at 2200rpm.
 Note! this is a commercial heavy duty rating and not the normal leisure ratings quoted by some.

This is the 8.4 litre turbocharged and intercooled engine built by AGCO Power from Finland specifically for marine propulsion in commercial applications.
 The base engine is used by AGCO corporation in their agricultural tractors and harvesters from such household names as Massey Ferguson, Valtra and Fendt.

This is the only commercially available common rail diesel engine range that is capable of running on 100% bio Diesel without modification and still retains its warranty! Certain conditions regarding fuel type and quality apply.

The engine is supplied 'bobtailed' (without gearbox) with the following options;

- Adjustable anti vibration mounts.
- Gear driven fresh and raw water pumps
- 2 additional grooves on crank pulley
- 24Volt starter motor and alternator
- Common rail fuel system with electronic engine management system
- Throttle potentiometer to enable speed control with conventional Morse type cable
- Water cooled exhaust outlet elbow
- Digital instrument panel with 5 metre connecting loom
- Owners manual and warranty registration documents for 12 months warranty

Engine is available from stock, but if you need any specific options adding there may be a lead time to source these for you.

Item is located at our Coventry warehouse should you wish to view and collection can be made from either Coventry or our Poole office.

Price £19,760.00 excluding VAT.

Shipping can be arranged - price on application.

If you have any questions, please ask.
